Air Pot Operation Instructions

Lid Release

1. Open the air pot by pressing the lid release located on the front of the lid

2. Remove the suction pipe and set it aside.

3. Fill the air pot with up to 2.2 liters of your favorite coffee.

4. Replace the suction tube close the lid, and lift the pump handle all the way up until it locks in place. Then simply push down on the pump handle to dispense your beverage.

If your air pot is not working or if you need any assistance, call us at 330-477-7719 or 1-800-686-4331 during business hours. After hours, weekends, and holidays please call our pager at 330-737-1227.

After the message, punch in the number where you can be reached, and someone will return your call shortly.
